

JPanel

desmoj.extensions.visualization2d.engine.model
Grafic.Grafic

desmoj.extensions.visualization2d.engine.model
Grafic.ListGrafic

```
classDiagram
    class JPanel
    class Grafic["desmoj.extensions.visualization2d.engine.model Grafic.Grafic"]
    class ListGrafic["desmoj.extensions.visualization2d.engine.model Grafic.ListGrafic"]
    ListGrafic --> JPanel
    ListGrafic --> Grafic
```

The diagram illustrates the class hierarchy for the visualization engine. At the bottom is the `desmoj.extensions.visualization2d.engine.model Grafic.ListGrafic` class, which is shaded gray. Two blue arrows originate from this class: one points to the `JPanel` class (top left) and the other points to the `desmoj.extensions.visualization2d.engine.model Grafic.Grafic` class (top right). This indicates that `ListGrafic` inherits from both `JPanel` and `Grafic`.
