

JPanel

ActionListener

desmoj.extensions.experimentation.ui.
ChartPanel

```
classDiagram
    class JPanel
    class ActionListener
    class ChartPanel["desmoj.extensions.experimentation.ui.ChartPanel"]
    ChartPanel --|> JPanel
    ChartPanel --|> ActionListener
```

The diagram illustrates the class hierarchy for ChartPanel. It is a UML class diagram with three classes: JPanel, ActionListener, and ChartPanel. JPanel and ActionListener are represented by white boxes with black borders at the top. ChartPanel is represented by a gray box with a black border at the bottom. Two blue arrows point from the ChartPanel box to the JPanel and ActionListener boxes, indicating that ChartPanel inherits from both JPanel and ActionListener.
