

Cloneable

```
graph BT; Parameter[desmoj.extensions.visualization2d.engine.command.Parameter] --> Cloneable[Cloneable];
```

A UML class diagram illustrating inheritance. A box labeled 'Cloneable' is at the top. Below it, a larger box labeled 'desmoj.extensions.visualization2d.engine.command.Parameter' has a blue arrow pointing up to the 'Cloneable' box, indicating that the Parameter class inherits from the Cloneable interface.

desmoj.extensions.visualization2d.engine.command.
Parameter
