

```
desmoj::extensions  
::chaining::abstractions  
::HasSuccessor< EEx >
```

A diagram illustrating a relationship between two Scala-like code snippets. A light gray box at the top contains the code: `desmoj::extensions`, `::chaining::abstractions`, and `::HasSuccessor< EEx >`. A dark gray box at the bottom contains the code: `desmoj.extensions.chaining.SplitterOutput< EIn extends Entity, EEx extends Entity >`. A blue arrow points from the bottom box to the top box, indicating that the bottom code inherits from or is a specialization of the top code.

```
desmoj.extensions.chaining.  
SplitterOutput< EIn extends  
Entity, EEx extends Entity >
```
