

JPanel

desmoj.extensions.visualization2d.engine.model
Grafic.Grafic

desmoj.extensions.visualization2d.engine.model
Grafic.StockGrafic

```
classDiagram
    class JPanel
    class Grafic["desmoj.extensions.visualization2d.engine.model Grafic.Grafic"]
    class StockGrafic["desmoj.extensions.visualization2d.engine.model Grafic.StockGrafic"]
    StockGrafic --> JPanel
    StockGrafic --> Grafic
```

The diagram illustrates the class hierarchy for the StockGrafic class. At the bottom is the 'desmoj.extensions.visualization2d.engine.model Grafic.StockGrafic' class, which is shaded gray. Two blue arrows point from this class to the classes above it: one to 'JPanel' on the left and one to 'desmoj.extensions.visualization2d.engine.model Grafic.Grafic' on the right. This indicates that StockGrafic inherits from both JPanel and Grafic.
