

FileFilter

```
classDiagram
    class FileFilter
    class XSLFilter["desmoj.extensions.experimentation.util.XSLFilter"]
    XSLFilter --|> FileFilter
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'FileFilter'. Below it is a larger box labeled 'desmoj.extensions.experimentation.util.XSLFilter'. A blue arrow points from the 'XSLFilter' box up to the 'FileFilter' box, indicating that 'XSLFilter' inherits from 'FileFilter'.

desmoj.extensions.experimentation.util.
