

JPanel

desmoj.extensions.visualization2d.engine.model
Grafic.Grafic

desmoj.extensions.visualization2d.engine.model
Grafic.BinGrafic

```
classDiagram
    class JPanel
    class Grafic["desmoj.extensions.visualization2d.engine.model Grafic.Grafic"]
    class BinGrafic["desmoj.extensions.visualization2d.engine.model Grafic.BinGrafic"]
    BinGrafic --> JPanel
    BinGrafic --> Grafic
```

The diagram illustrates a class hierarchy. At the bottom is a grey-shaded box representing the `desmoj.extensions.visualization2d.engine.model Grafic.BinGrafic` class. Two blue arrows originate from this box: one points to a white box labeled `JPanel` on the left, and the other points to a white box labeled `desmoj.extensions.visualization2d.engine.model Grafic.Grafic` on the right. This indicates that `BinGrafic` inherits from both `JPanel` and `Grafic.Grafic`.
