desmoj.extensions.visualization2d.engine.model
Grafic.Grafic

desmoj.extensions.visualization2d.engine.model
Grafic.RouteGrafic

```
classDiagram
    class Object
    class Grafic["desmoj.extensions.visualization2d.engine.model Grafic.Grafic"]
    class RouteGrafic["desmoj.extensions.visualization2d.engine.model Grafic.RouteGrafic"]
    Object <|-- RouteGrafic
    Grafic <|-- RouteGrafic
```

The diagram illustrates a class hierarchy. At the top left is a box labeled 'Object'. To its right is a larger box containing the text 'desmoj.extensions.visualization2d.engine.model' and 'Grafic.Grafic'. Below these two boxes is a third box containing 'desmoj.extensions.visualization2d.engine.model' and 'Grafic.RouteGrafic'. Two blue arrows originate from the bottom of the 'Grafic.RouteGrafic' box: one points to the bottom of the 'Object' box, and the other points to the bottom of the 'Grafic.Grafic' box, indicating that 'RouteGrafic' inherits from both 'Object' and 'Grafic'.
